Sriracha (Teleport)

HIGHLY SECURE AND RELIABLE CARRIER-NEUTRAL DATA CENTER IN BANGKOK

NT Sriracha Data Center is strategically located near Thailand's Submarine Cable Station, providing direct access to key submarine cables, including AAG and ADC, for fast, low-latency global connectivity. As a carrier-neutral facility, it offers multiple communication routes, ensuring resilient and uninterrupted operations. Equipped with advanced power and cooling infrastructure, and certified to ISO/IEC 27001 and ISO/IEC 27701 standards, the data center supports secure and scalable colocation services, making it ideal for businesses expanding their digital presence.

Why Choose NT Data Center Sriracha?

Strategic Location

Located near Thailand's Submarine Cable Station and the Eastern Economic Corridor (EEC), NT Sriracha Data Center offers fast, low-latency global connectivity and convenient access to Thailand's major economic zone.

Carrier-Neutral

Provides diverse communication routes and multiple network options, giving businesses the flexibility to choose providers for improved redundancy and cost efficiency.

Reliable Infrastructure

Equipped with dual power sources and advanced cooling systems, ensuring uninterrupted operations and high availability.

Operational Excellence

Our team delivers 24/7 monitoring and proactive management, ensuring your IT infrastructure stays secure and performs optimally at all times.

Facility Overview

- **Address:** 215/6 Moo 9 Bypass 36 Road, Sriracha, Chonburi 20230
- **Location:** Floors 1 and 3 of the building
- **Floor Space:** 381 sq.m
- **Floor Load:** 500 kg/m²

Power Capacity

- **Substation:** 2 independent substations with diverse power feeds
- **Transformers:** 2N redundancy
- **UPS (Phase 1):** 2N redundancy
- **UPS (Phase 2):** 2N redundancy
- **Power Supply:** Dual AC 230V x 2 sources (for racks)
- **Power Outlet:** Universal Outlet, C13/C19 Power Strip
- **Generators:** 2N redundancy
- **Fuel Backup:** 12 hours of full-load capacity
- **Tier:** Designed to Tier 3 standards

Connectivity

- **Carrier-Neutral:** Multiple local Tier 1 carriers
- **Internet Exchanges:** Direct to NT IIG
- **Submarine Cable:** AAG, ADC

Security

- **CCTV:** 24/7 monitoring
- **Access Control:** Multi-factor Authentication (MFA)
- **Security Guards:** 24/7 building security
- **Data Retention:** CCTV, Access logs
- **Certifications:** ISO/IEC 27001, ISO/IEC 27701

Fire Control

- **Fire Suppression:** Novec 1230 Gas System
- **Smoke Detection:** Photoelectric Smoke Detectors
- **Alarm System:** Bell, Horn, Strobe Light

Climate Control

- **System:** N+1 redundancy
- **Control:** 18-25°C and 45-60% humidity
- **Cooling Method:** Downflow Air Conditioning

Environmental

- **Flood Risk:** Flood-Free Area
- **Transportation:** Easy access to Chonburi Motor Way No.7, 30 km to Pattaya
